

iRIIING!

iRIIING!

This is a simulation
to assess your loan 🧯

So you're not
making any commitment

What you see is what you get.

The property appraisal request is a document that we need to verify your customer information. It allows us to find out your creditworthiness, Social Security information and any amounts owed to financial institutions.

It protects us both:
you and us 😊

How does it work?

We'll explain it in very simple terms.

As they say in the world of football: keep it short and to feet 🏑

01

Get the Logalty email

02

Click on the link

03

Answer the data protection clauses

04

Open the document entitled FIPREAM

05

Answer the questions and provide the required documentation and voilà! You're done

Hang on, not so fast!

We have something important to tell you before we finish.

This document is NOT a contract.

Your information will only be used
to carry out the appraisal.

Nothing more, nothing less.

Out of the bank
